

# Sturdi-Strip™

## furring strip

- 3/8" thick by 1 1/2" wide
- Easy-to-handle 4-foot long sections
- Pairs great with the SV-3 siding vent, or doubled up to match SV-5 siding vent
- 112 pieces per carton (448 lineal feet)
- Color: Black
- Heat-resistant: made from profile extruded polypropylene plastic
- Impact-resistant: screw, staple or power-nail in place
- Crush-resistant: Will not compress like "drainage mat" products
- James Hardie® recommended, unlike "drainage mat" products

(see: <http://www.jameshardiecommercial.com/pdf/HardiePanel-Rainscreen-Quick-Reference-Guide.pdf>)

### Q: How many Sturdi-Strips do I need?

A: On stud spacing with 16-inch centers, you would need 1 linear foot of Sturdi-Strip for every square foot of wall → for 500 square feet of wall, you would need 500 lineal feet of Sturdi-Strips. For 2-foot on center spacing, you would need 80% of that number – or take your square foot total and multiply by 0.8 → for 500 square feet of wall, you would need 400 lineal feet of Sturdi-Strips.
